CARPET DEFOAMER

Eliminates Foam
In Liquid Recovery
Tanks

NET CONTENTS: 1 QUART

DESCRIPTION

A waterbased emulsion formulated to quickly eliminate foam in liquid recovery systems, extraction machines, automatic shampoo equipment, and floor scrubbers. In certain types of extraction machines, a defoamer can be sprayed directly into the recovery hose as well as recovery tank. NOTE: Any residual of defoamer left in the carpet fibers will promote resoiling at a faster rate if product was applied directly on carpet.

CAUTION: Do not apply directly onto any stain resistant carpets as it will cause the carpet to become extremely slippery.

DIRECTIONS

1. Shake well before using.
2. For excessive foam, spray defoamer directly onto foam in recovery tank as needed.
3. For carpets that have been repeatedly shampooed, spray defoamer into recovery hose and onto sides of recovery tank prior to extraction.

DIRECCIONES

1. Sacudida bien antes de usar.
2. Para la espuma excesiva, rocíe el defoamer directamente sobre la espuma en el tanque de la recuperación según lo necesitado.
3. Para las alfombras que han estado en varias ocasiones shampooed, defoamer del aerosol en la manguera de la recuperación y sobre los lados del tanque de la recuperación antes de la extracción.

CAUTION

EYE IRRITANT. MAY CAUSE SKIN IRRITATION WITH PROLONGED CONTACT. Avoid contact with skin and eyes. Do not take internally. Keep out of the reach of children. For professional use only.

FIRST AID

EYE CONTACT: Flush with water for at least 15 minutes. If irritation persists, call a physician.
SKIN CONTACT: Wash thoroughly with water.
INGESTION: Call physician.

CONTAINS

Silicone Emulsion (63148-62-9), Water (7732-18-5).

(rev. 7/99)I-40
