

# Industrial Degreaser Dispensing Systems

*The perfect degreaser doesn't exist yet, but with the Revite Fusion 2 Part Degreaser System, it will.*

## What is REVITE FUSION ...

Misco Products is excited to introduce our newest system in our line of industrial products. This closed loop system takes two powerful products that cannot normally be combined and accurately dilutes them at the turn of a knob. The products are mixed together, creating a strong ready to use product, with a formula that's specifically designed to tackle tough cleaning and degreasing jobs. The addition of this system gives users access to ready to use product that they have never had before in an easy to use, compact dispensing system.

### REVITE FUSION 2 PART DEGREASER SYSTEM

**Features**

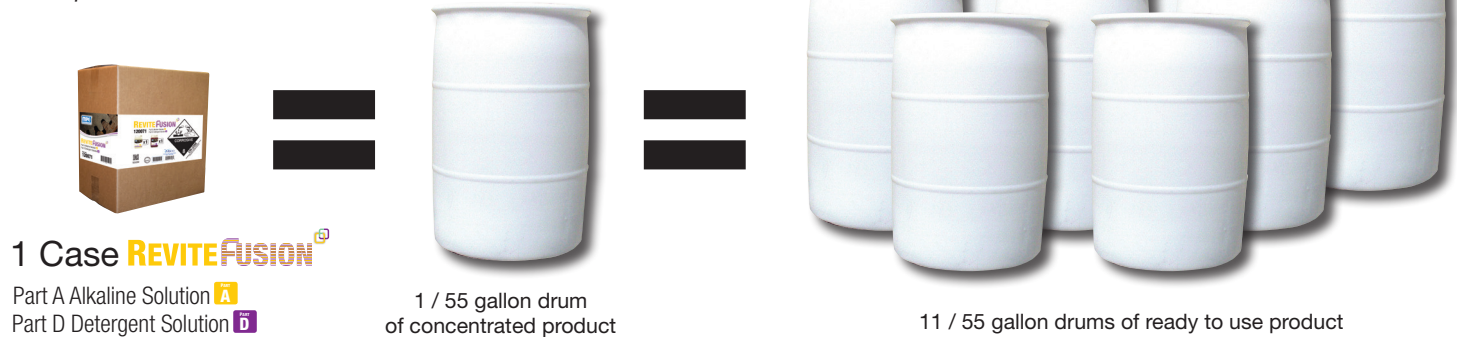

- Closed Loop System
- Dilution Accuracy
- Low Foaming System
- Built in Flash Corrosion Inhibitor

#### **Revite Fusion Customer Performance Satisfaction Guarantee**

For Distributors:

Misco Products guarantees the performance satisfaction to the **End User** of the Revite Fusion Dispensing System. Within the first 30 days of their purchase, if the **End User** is not completely satisfied with the performance of the Revite Fusion System, please return the system and chemicals along with proof of **End User** purchase to Misco Products.

This 30-day guarantee pertains to the performance of the Revite Fusion System **only**. Refer to the dispenser manufacturer's warranty for matters regarding dispenser defects and workmanship.
