**Plastic Surfaces**  
*superficies de plástico*

**DESCRIPTION**

This product is designed specifically as a general non-acid cleaner and disinfectant for use in homes, hospitals, nursing homes, schools, food service establishments, office buildings, lodging establishments, retail businesses, veterinary clinics, and athlete/recreational facilities where housekeeping is of prime importance in controlling the hazard of cross contamination.

It is formulated to disinfect hard, non-porous, inanimate environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, and cabinets. For plastic and painted surfaces, spot test on an inconspicuous area before use. May be used in the kitchen on counters, sinks, appliances, and stovetops. A rinse with potable water is required for surfaces in direct contact with food.

# FRESH BREEZE-TB

## RTU Tuberculacidal Disinfectant

### FEATURES

- Broad efficacy
- Cleans, disinfects, and deodorizes in one step
- High pH
- Ready to use
- Pleasant aroma

### BENEFITS

- Effective against MRSA, CA-MRSA, Tuberculosis, and HCV
- Saves time and labor money
- More powerful cleaner
- No mixing of chemicals
- Leaves surfaces smelling clean

### AREAS OF USE:

- Hospitals
- Nursing homes
- Schools
- Office buildings
- Bathrooms

### DIRECTIONS:

Refer to original container label for complete use directions.

### CAUTION

KEEP OUT OF REACH OF CHILDREN. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

### FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

### SPECIFICATIONS:
